WORK EXPERIENCE

Faculty Aptech Scheme33

04/2025 - Present

Achievements/Tasks

- As a faculty member at Aptech, my primary responsibility is to deliver high-quality, industry-relevant instruction in IT, programming, and other related subjects. This includes preparing lesson plans, conducting interactive classroom and lab sessions, evaluating student performance through assignments and assessments, and providing academic guidance to help students build practical skills aligned with current industry standards.

Full Stack Developer WebVibe Studio

08/2024 - 03/2025

Achievements/Tasks

- Developed **dynamic web applications** using **PHP, JavaScript, MySQL**. Built and optimized **responsive front-end interfaces** with **HTML, CSS, Bootstrap**. Designed and managed **database schemas** for efficient data storage and retrieval. Integrated **third-party APIs** (e.g., OpenAI, payment gateways) for enhanced functionality. Improved **application performance** by optimizing queries and implementing caching mechanisms. Collaborated with clients to develop **scalable and secure** solutions.

EDUCATION

Bachelor's Sir Syed University of Engineering And Technology

10/2024 - 10/2027

Courses

- Software Engineering

PERSONAL PROJECTS

AI Assistant Chatbot (01/2025 - 01/2025)

- Tech:** Python, Flask, MySQL, OpenAI API **Overview:** Developed an AI assistant chatbot that leverages OpenAI's API to generate intelligent, context-aware responses. Integrated with a Flask backend and MySQL for data storage, the chatbot offers real-time assistance through natural language processing. **Key Features:** Context-aware dialogue, real-time interaction, and streamlined API management. **Challenges Solved:** Optimized API integration to reduce latency and implemented robust error handling for a reliable conversational experience.

ExpenseVoyage (09/2024 - 09/2024)

- Tech:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL. **Overview:** Built a travel booking platform with an interactive UI, custom booking options, and integrated reviews & blog. **Key Features:** Smooth navigation, user-preferred trip customization, mobile-friendly design. **Challenges Solved:** Optimized search filters & improved responsiveness for a seamless user experience.

MovieNite (03/2024 - 03/2024)

- Tech:** PHP, MySQL, JavaScript, HTML, CSS, UI/UX **Overview:** Developed a Movie Management System with booking features and an admin panel for managing movies, showtimes, and user bookings. **Key Features:** Real-time data management, pagination for smooth browsing, and a modern UI for both users and admins. **Challenges Solved:** Optimized database queries for faster performance.

The Cake Shop (03/2024 - 04/2024)

- Tech:** HTML, CSS, JavaScript, Bootstrap, UI/UX **Overview:** Developed a modern and responsive website for showcasing cakes with an intuitive and interactive design. **Key Features:** Sleek layout, smooth navigation, and enhanced UI using Bootstrap's grid and components. **Challenges Solved:** Improved responsiveness and user experience for seamless browsing.
